Mr S'anford always talks clearly on ralend questions He is a railway magnate and manopolist, and for a great many years has been taking "all the trailic would bear" and retwellt all the control of th all his constitution and power he is with all his opportunities and power he is obliged to conform to the great laws of train To get through his ness he has been obliged to give low rates, which can no longer be great d in consequence of the interestic law, to get the arriage of goods from China, Japan and Mr. ralia across the continent for our own I aste n markets or for shipment to Europe he has been compelled to make very low rates which be can no longer grant and hence he says, beyond doubt with entire truth, thatlenforcement of the fourth section of the interstate law will be simply destruction of our commerce with all countries whose trade comes to us ac oss

was made by Stanford, a Sin Francisco, on Saturday. A portion of the statement, which contains more matter in short space than any ther deliverance on the subject yet made, will bear repetition. "The through freight business," says Mr. Stanford, 'is but a small proportion, probably not more than 15 per cen' of our whole carrying irade. It is upon our local business we depend for prof. This may be said of all roads, and will be true of every road that reaches the Pacific coast. Brought, as we are, by our location, into competition with the great waterways of the ocean, we cannot make the rate. Where the means of transportation which is naturally the cheapest means of transportation, will always make the rate, and railroads must follow or forfest the business. Now our agents in China and Japar are brought face to face with competitive rates by way of the of Panama, and by all water around Cape Horn Hitherto we have tried to meet that competition by giving rates which, if not as low as those by water, were, when combined with the added advantages of speed, sufficient to secure a large proportion of business. These rates, of them-salves would not be remunerative, that is to say, if our whole carrying business was conducted on the same basis it would not pay the operating expenses of the road and interest on the inresiment, but as we are compelled to keep up our track and rolling stock and operate our road anyway, through business, even at those low rates, contributes toward paying the expenses of the road, and to that extent operates in a measure to enable us to make lower rates on local business than might otherwise be possible.
Now, however, we are brought face to face with
the through proposition. If the law is to be literally enforced and we cannot make a special rate for this through business without making a corresponding rate for all our local business, we shall be compelled to choose between local and through business.

cific roads. Nor are the roads alone interested in it. It concerns our mercaptile and shipping interests, and affects the business of our ports.
Repression of commercial activity operates in
many ways to the disadvan age of all the interests of a country Every additional ship that this world-round commerce brings to our ports furnishes an additional facility for clearance of the products of our labor, and therefore brings benefits to the producer. Transit of foreign commerce across our country is therefore a thing to be encouraged, not represend.

## POLITICAL POLITENTS

Last year a new organized force—the labor party—made its appearance in the politics of the country. In many places it developed great strength, chesily in the large cities, and notably in New York where it threw 68,000 votes for Henry George. It decided the elections in Illi-nois and Wisconsin—its vots in Calcary and nois and Wisconsin—its vots in Chicago and Milwaukee drawing very heavily from the dom cratic party and proving more than an offset to the prohibition vote drawn mainly from the re-publicans. This year's indications follow those of last. In the municipal elections the labor or socialist party has presented separate tickets and supported them. At Chicago the withdrawal of so heavy a body of voters from the democratic party left that party in a state of cellapse. At Cancinnate the contest was a close one between the new party and the republicans—the democratic party being a bad third. At Milwankoe the new party had more votes than a fusion ticket supported by both the old parties, and was beaten for the country effices only by the vote of the country districts. At Dubuque and other places the labor or socialist party won. of last. In the municipal elections the labor or

ers, organizers and spokesman of the new party say the purpose is to persevere, that state tickets will be presented in Ohio, New York and other states, as last year they were presented in Illinois and Wisconsin, and hat a caudidate for the presidency will be as med and supported in

Whatever the ideas and purmoser of the ser-calast party may be and they are as set quite rague, formites, nebulous and indentite—there is no probability it will exhibit much strength except in the cities. The party campo there fore prevail, his has the prohibition have may become a real advectore in profile. The chief against on fide growth of the la lie fact las its numbers are diawn very latter, from too da no. can be party. He grant the terror was trust; party, especially negretic is unimply comes a counterposal the tob on the which is drawn the fibrallities in party. In the rule of the party in the party in the rule of the party in the party

not wellkely that the democrats will be weaken cials, vote than the repulsiveness will be by the less of the probibition rote. Such a foil to the probabilion rote in ISSI would have been the democratic party, except in the Southern styles.

To the state of th

quite out of sight.

In the absence of definite sques between the parties, in the weakening (f par y lines, in the growth of new political organizations and in the spread of ideas which, however old and impric apread of more which nower that and infigure treable, a rike a multitude of people as novel, suggestive and perhaps frantial, there are signs of greater changes in the alignment of parties and of more general redistribution of political forces than have been witnessed since the a vitation of the slavery question began to engross

ests, on water-powers, on schools and railroads. on the finances of the county, cost of I ving and all else that the immigrant may desire to know. It ought to have a large circulation and do much good in attructing attention to Colum bia county. It is published lat Daylon, at the

The prohibitions of the interstate law would be a protective tariff for this coast, if there were any certainty that the law would stand A san Francisco paper says, "I we could be sure that the abolition of competion in freights is to be permanent, we might build upon it in direc-tions of great importance to many interests; but when Eastern manufacturers are cut off from a profitable market here intrigue for its recovery will begin, and coppress will be the focus of

PROGRESS OF TEMPLRANCE

The Rev John Sayder of St Louis, in the April number of the korum opposes the doctrine of prohibition not only as impracticable but as operating to encourage was and breed by the state of bypooney. Mr Snyder, however, does not con fine his discussion of the question to the politiand his discussion of the question to be point-cal justice or the social practicability of prohi-bilion, but attacks it from another point of view when he asks this pregnant question "Are all those social and political forces which may be classified as anti temperance so strong, so aggressive and so dangerous in this country, that gressive and so properous in this country, that they demand for their control or extirps ion a special mode of legal treatment, which is out of barmony with the temper and spirit of Ameri-can junispir dence." He shows that not only in the non problemon states of this country but in England that instead of being on the increase intemporance has been steadily diminishing dur ing the past century, and that what was once treated len ently by the best people of civilized secrety, measured by their virtue and intalli-sence, as an amiable and pardonable weakness, to my treated s'ernly as a vi s Every man of reasonably vide reading knows that Mr Suyder is right. The autobiographies of embent men, reasonably wide reading knows that Mr Snyder is right. The autoblographies of eminent men, the published correspondence and reminiscences of Jersons who have build the largest so that knowledge of their own times for the last ball century contain ample proof of the truth of Mr Sayder a conclusion that the evide of intemperance have a note of ar outstripped in grow had power the wholesome forces of Christian continuous best them forces. Civilization that these forces must be practically abandance for a legal measure which seeks to outh the heeses of the victors by destroying the ra ional liberty of the victors of As early as 1813 the Methodist church took a

decisive stand on the temperance question, and all other denominations have followed it in de-nouncing intemperance from the pulpit. While the American pulpit never was more completely a unit'lo its opposition to intemperance, it is very far from being a unit in favor of prohibition. Indeed, to-day among the ablest and most ardent oppolents of prohibition are many men who, by their pricate virtues, public philathropy and professional talents, have greatly enlarged the moral power and religious influence of the American pulpit. In many instances they are men who were once captivated by the theoretical purpose of prohibition, but have become converted by logic of events to high taxation. Political economists, social reformers and ubilianthropists in Europe long ago reached the carfusion that the most beneficent liquor legislation that can be adopted is that which after the c netraing that the most beneficent liquor legis-lation that can be adopted is that which aims to reduce the multiplication of saloons and pun-lines erverely, as is done in Germany, France and England, the adulteration of liquots, Europe starts with the concession that the at-Ectope starts with the concession that the aimest universal practice of all civilized countries maker, to a greater or less extent, some form of alcoholic drinks part of the diet of man. It leaves to the schools, the pulpit and other teachers the work of educating the world to believe that all alcoholic drinks should be dropped from its dief, but says that so long as alcoholic drinks form part of the diet of man its adulteration should be provided against by law, just as the law seeks to protect the people against the adulteration of food or drugs. To the conclusion of the wisdom and virtue of Eugenstales. rope, the wisdom and virtue of America are sure to come at last, indeed, are coming with

rapid step to day

Co far is the drick habit, as a rule, from an odating poreity and crime, that it is generally its ornsequent rather than its antecedent. The fairly prosperous and happy man or woman seldom is naive of drink habit, it is the vice of the idle or the broken and unhappy of either Fex, who are not chieff; id e, broken or unhap, is because they have been intemperate, but have been me intemperate of the general moral and spinitual relaxation that is consequent upon an ide, unsuccessful and unhappy existence. The ignorance or lack of moral sense and selfcontrol that persuades a man to adopt a life of crime nine times out of ten asserts itself before the drink halit has been formed, and then the drink habit may follow as one of the natural consequents or coincidents of moral deteriora-tion

The steady growth of temperance through voluntary action is illustrated by the fact that the surfi officers of the First brigade of the Marsachusette state militia have unanimously voted not to carry any intoxicating drinks of any kinds to camp this year, and not to permit the drunking of such liquous in their tents during the encampment.

## WHY CHICAGO RIGHTED ITSELI.

The recen victory of law and order over municipal robbery and threatened anarchy in Chicago is the most signal triumph of the friends of good government since the fall of the Tweed ring in 1572. The sensational acts of the agar. chists have drawn the public attention away from the fact that the real peril of Chicago was lers from socialism, which is a foreign weed that never can take deep root in money-getting, property-acci mulating America, than it was from civic corruption, which is the deadly night-shade growth native to our soil, planted by scoundrels and nourished in the friendly atmosphere of partisan politics. Carter Harrison, for eight years past mayor of Chicago, has been to that diversely the first plant. that city what Oakey Hall was to New York under the Tweed ring. He has pandered to the criminal classes, the gambles, the thieves, the liw dives, the ballet box burglars and pickpockets, the treasury plunderers. His last act was to urge his friends to become allies of the socialists in order to defeat the republican can display for many many control of the socialists. didn'te for major, re'this was not as had as his seven jeurs alliance with public robbers and criminal classes of Chicago But at last the democrate 'as a stockurge,' as Harrison dens wely termed them, and anonthy repudiated his countries then, no gradity repudiated his they be diern be elasted of partisms politics for years they had helped Herrison and his corrupt ring of gambiers, ruffigue and ballot box sinffers to victo y time in d as in, either by their votes or ty in-r utter in infference to his minimal ad

is to not the movement of a great com-trea city. Why did these democrationed re-serve city is likely occurred to a weak lettidia e bairi the counsels and brain They for a mean entropy not because they cared at little electropy not because they cared at little electropy on of the city governed at little electropy on of the city governed in the city cared at little electropy of the city of the CFI criup i mai denominamment at opestreke every man water is a housel older furious to put cut the torch of anarchs, he might have been the most joverful man in Chengo to-day, just as Tweed to years secured immunity by pretending regard for the great y operty beldens and business men of New York. If he had and dustiness men of New York I to be not hele dup not omendous dust in his favor by his zent in stamping the anarchists under his fest projectly would have praised him and condoned the covert corruption of his government. But the moment he dailed with fellows whose hombs and terches make money-lenders lock up capital and avoid investments, make properly values this and manufacturers disposed to pull up their plan make factories eilent and indus-trial prosperly wane, then his day was done. for property never forgives the fellow who robs

or crime

Harrison might as well have expected that democratic property holders would refuse to help republicans put out a great fire as to expec that they would obey his miserable counsel and refuse to belt republicans vote anarchy down at the polls. And so Chrongo, that was not warned by bistory of the rise and fall of the Tweed ring in New York, has at last risen and crushed the Harrison ricg, not because the ring is any more real roles in the not because the ring is any more comply or rajacious than it was known to be six years ago but because its rule threatens not simply the miral good name of Chicago, but its industrial grawth and commercial welfare. So the monicipal robbers and the anarchists having entered the same boat have been sonk by the same stot, but had Harrison estentationaly ex-cluded the annichists from his puratical craft his vessel would to-day be still riding the sea in safety.

it of its safet, and threatens its life by his foli-

The regustration in Chicago, before the recent election, showed 24,671 voters who were born in C. Co. 1, 19 Washington street.

Germany 22 % who were born in Ireland and \$4,246 who were born in America. Of foreign nationables other than German and Triab. the nationalities other than German and Irish, the number was a little over 10,000, so that the proportion of fureign to native born voters was as 58 to 31. The fact that the efforts of the aurachists and sounlists get ac heavy a rebuil shows that much the larger part of our voters of foreign hirth do not sympathize with and will not tolerate those destruct we principles

There are very many people who will not re gret the blunder through which Marple, who was convicted by a Yunbill jury last week of the murder of torker may get a second trial. The testimony was purely circumstantial and While it pointed directly to Marple it did not nos while a pointed directly to harpie it did not pos-lively prace bim to be the murderer. A repot-able man could never have been convicted by the testimony which the jury considered suf-ficient to this cree. Marple was found guilty upon, his character of general secub and secundars, and by his own fools h talk rather than upon the orlience connecting him with the crime. The jury, in recommend ing him to the mercy of the court, exposed a sense of uncertainty as to his guilt and as well sense of uncertainty as to his guilt and as well a want of common intelligence and judgment. About the proceedings there was an air of 'soap judgment' out of keeping with the terrible penalty of the gallowe. If the man is guilty, nothing will be lost by trying him over again. He may be guilty, probably is guilty, but in our judgment his guilt has not been proved beyond the peraterature of a doubt. the peradventure of a doubt

The death of Judge William Strong temoves one who has been prominent in Oregon and in Washington territory during many years. He was a man of pronounced type of character his life bare, from 1850 to 1883, was an active one, and few men among us have been more generally known. During some years past, as the infirmation of the properties of t the infirmities of age were growing upon him, he dropped gradually out of active lite. Our pioneers are failing so fast that we get almost daily reminders that in a very short time none

The New Orleans Pronyune says that the demoratic position on the tariff must be this, to-wit "That tariff duties, while levied for rev-enue, must be so adjusted as to protect foster and encourage American industry." The, it is stated, is what the "New South" is going to require of the democratic party

Minnesota and Dakota have a fine climate A few days ago there was terrible cold Oh Saturday last it was oppressively but and fires were running over the prairies burning people to death. Probably before the end of the week there will be a snow blizzard, with temperature

The result of the city election at ( hicago in which the socialists were beaten by nearly three to one, leads the Triburs to remark that "red is a striking color for a flag, but it doesn't do to shake it in the face of the beatthy old bull of American public opinion"

A committee of the legislature of Connecticut, recontinue of the registrate of connectical hering a republican majority has reported a reconting that the federal tares on imported lumber, coal, iron, wood, sal and copper ore are an injury to the interests of Connecticut.

The Pacific railroads are not pressing the in-terstate commission for suspension of the long and short have clause. Probably their managers want to let the people have time to be fully estisfied with the way it works.

No wonder digarces increase in Connecticut when parties who cannot matry legally in New York can nevertheless negotia e a marriage in Connecticut that will be valid in New York

Gov Hill, of New York, is in an exceedingly tight place on the high license bill. He is equally afraid to zeto it and to approve it.

JUDGE WILLIAM STRONG.

HILLER SKETCH OF HIS CABEER -A RI. SIDENT OF OREGON SINCL 1850

Judge William Strong, who died in this city yes terday morning, has for many years filled a promi-nent place in public affairs in Oregon and Wash ington territory. He was descented in the seventh generation from Edger John Strong of Northamp ton, Mass, who arrived in New England in 1631

ton, Mass, who arrived in New England in 1631 ten years after the lunding of the Pikrums on Plymouth rock. His father was Rev John P. 102 Strong a Presbyterian clergymath, and his mother was Laura Clark, daughter of James Clark of Dan bury Conn.
Judgo Strong was born at St. Albaus Vermont on the 16th of July 1817. He was graduated from 1 ale in 1838, and went to Claveland, Ohlo, where he taught school and studied law After his ad m sion to the bar he commenced the practice of law at Claveland, viers he lived until January. law at Cloveland, where he lived until January law at Cloveland, where he lived until January laso He was married at Gosher Conn. 18th Octo by 1800, to Miss Lucretia Robinson, daughter of Wm Putt Robinson of New Haven, Ili, and Caro

ine Buil.

During his residence in Cieveland Judge Strong was an active politician, doing his first campaign work in 1840, stumping the northern counties of Ohio for Harrison and Tyler, the whig nominces for president and vice president. Three children were born to him at Cleveland, but the firs two dled in infancy, one at Cleveland and the other at

not president and vice president. These changes were born to him at Cleveland, but the first two dled in infanes, one at Cleveland, and the other at sea on the vergage to Oregon. In 1849 he was appointed by President Taylor as cointe justice of the supreme court of Oregon. In 1849 he was appointed by President Taylor as cointe justice of the supreme court of Oregon territory and id the and with his family emb. riced in January 1850 on he and the builted States store ship 52.595 which had been ordered to the Paulic coast and upon which the nearly appointed federal olders for Oregon territory were familished passages with the government. Among his fellow passages were composited to the Coan E. Havington States and the late Coan E. Havington States and the late Coan E. Havington States and the late Coan E. Havington States and Mr. Aarron kan sev of this (1). Upon this ar had he ore, of Judge Strong was as land to the structure of the Coan E. Havington and the late of the structure of the Coan E. Havington and the late of the structure of the Coan E. Havington and the late of the structure of the Coan E. Havington and the late of the structure of the Coan E. It was past four years failure he though a past four he has not on artive business but he has not on high the bast few dars been a familiar fourm upon the streets and in the law don'ts. Jidgo's rong has been for two years a widower his excel on wife having died on the fill of November 18. His career as a lawyor was a successful one Had his thrift in money matters quaned his thrift in money matters quaned his professional ability he would may each mably have accumulated a fortune, but making more, was not his peculiar giff. He was a form dable man before court or jury, but it is principal methods the trought by the hould be the property of the second of the fill of the property of the second of the fill of the property of the second of this fill of the well known plays clap. Frederick R. Strong and Thomas N. Burong lawyers of this city. Wm. J. Strong now in business as The balles, and two daughters, Misses Ellen and Caroline Strong of this city and second grandehildren.

## CURL OF SPINAL WEAKNESS.

Ny wife five years use was contined to her bed with holimmalory rheumatism of the muscles of the back. The declores thought her ease hopeless the back of the back. The declores thought her ease hopeless which the pain kept her awake almost every night she lost over thirty bounds's well, by To ease her pain I thought I would pend ALLCOLA'S POROUS PLASTING I covered her back with them To my great delight sue began to sleep well. The pain very much abaced in one week. I then took the plasters off washed her back, and put on freshone at the end of the second week all haisted ongetting up and by the third week was entirely well and able to strend to her to useful duties.

THE CHINESE AFFRAY.

Full Account of the Riot on the Northern Pacific Railroad.

The Guards Interfere to Quall the Bow smoog the Ohinese and then Shoot to Protent Them selves-Another Victim

On the arrival of the Tacoma train yes ordry a On the arrival of the Tacoma Iralin yes ordry a telephone message was received at the office of Coroner Delán saying goto the Northern Pacific passenser depot and jet the body of a Chinarian who died on the way down. Deputy Anry Dolin obeyed the strangons and obtained the body of a Chinaman. The Ees and during the row at the rat road front seventy miles east of Tacoma Salur day noon. He took the remains to the coroners office and arrangements for an inquest if one is deemed necessary, will be made hereafter. Nich I awson of inductor of the train which arrived from facoma yesterday afternoon, states that the Chinaman who died had been shot through the stometh with a Winchester rile that he was to a precarlous condition all the way down and breathed his last just as the train was pulling, hit the I orthand Sard. Two other Chinanian who were wounded during the fracas were brought down and sent to the hospital. One of these was shot in the shou der and the other in the back of the neck the ball just praying the skull. Bo b of them will recover.

THE ALLERAL.

them will recover

THP AITRAY

A short account of the alfair given by a guille
man who came down from Tacoma is hat the
Chinese at the front have been marreling a nour
themselves and their bossess and bookman. Thy
were receiving eighty cents a day and demand.
\$1 a day. The ruction finally assumed such sertous aspect, that a Chinese agent from Portland
was sent for to smooth over the trubble amount the
laborers. On his arrival the coolies had deter
mined to leave and the agent endeavored to infine
the continued to leave and the agent endeavored to infine
the first of the first placer. Histor telling
him to give them the \$1 a day asked. To this the
agent greed. The laborers were determined
to exercise to guik and the agent was unable to
agent them. The result was a general uprising
during them. The result was a general uprising
the At this increase and the agent was unable to
employed as gunded interface and though to a
made for the gunds interface and they to protect them
selves fired with the result aiready known. What
will be the outcome remains to be seen.

ANOTHER ACCOUNT

ANOTHER ACCOUNT In addition to the account which appeared by

In addition to the account which appeared by telegraph in The Orrowan yesterday morning to regard to the row among Chinese at the frontien the Cascade division of the Northern Pacific, the following particulars have been obtained from the Income Ledger of Sunday

At noon yesterday Superintendent Sprague, of the Pacific division of the Northern Pacific road received a telegram of the Northern Pacific road received a telegram of the Northern Pacific road accessed a telegram of the Northern Pacific road accessed a telegram of which the sprague and accessed a telegram of which we have a conce to attend two men with guinter selections at once precured a special engine and sent the railroad surgeon and Dr. H.C. McCord to the front The Stone of the Affile.

Fattles arriving on the Irain at 2 o clock this morning are the following version of the occur range. The several dwar there, less bear, ment discatile.

rantes arriving on the train at 2 o clock this morning, are the following version of the occur rence

For several days there has been great dissatis fartion among the Chinese and they have made it very uncomfortable for the Chinese agents from Fortland of whom two have been at the front of the chinese and the front of the chinese and the chinese and from Fortland the turniot began again. This morning common the guards at the front notledge an unusual common the guards at the front notledge an unusual common the guards at the front notledge an unusual common the guards at the front notledge an unusual common the guards at the front notledge and unusual common the guards at the front notledge and unusual common the guards are the unfortunate now we evidently the first the first the first part of the guard attempted to not refere hit was met by a volley of stones and sticks and compelled to retreat the summoned and and a number of the guards arming themselves next to the camp to resem the agent. A fight ensured in which the Chinese used rocks, clubs hatchets shoots and to fact ary thing, they could get their hands on. The guards bore the attack as long as it was sade and then opened fire. This soon caused the Chinese to stampede leaving

opened fire This soon caused the Chinese to stampede leaving The WOLNDED.

To take care of themselves The guards libra ed the half dead Chinese agent and then turned their attention to the others. It was found that six Chinese had been injured two of these saverely and one fatality the inter having been shown to the body. The guards had not been injured saverely, receiving only some bad bruises from the stones and chibs. body. The guards had not been a from the stones und cross some bad bruises from the stones und ctubs.

The seven Chinese were brought down on the train and taken to the railroad warehouse where they were at least accounts. One of them was fast sinking and will probably die soon if not dead by the time this story is read by the nublic.

It is said further that the Chinese have caused the guards a great deal of trouble by stoning them whenever they approached too near. The Chinese appear to be entirely to blame for the trouble.

Appettura Ritters are endorsed by all the leading physicians and chemists for their purity non wholesomeness. Beware of the counterfelt and ask your crocer and druggist for the genuine article prepared by Dr. J. G. B. Slegert and Sons

## EXPRESS COMPANIES

New York Herald

The question has been raised whother express companies are subject to the provisions of the Interstate Commerce law. It may been stated that they are folwarders nod not common earliers and hence that the law does not apply to them.

There is no roun for quest of hore. The law or tends to any common earlier or carriers engaged at the transportation of passengers or property who by yruffication partly by railroad and partly by water providing such earliers are engaged in the transportation of passengers or property who by yruffication partly by railroad and partly by water providing such earliers are engaged in that face commerce. I press companies are common transported to the control of the production of the control library and the United States. The transfer of the production of the control of the electrodates in each of these causes are an

The last speck of snow has me ted from the H ppner bills

Mail for the Pine creek mines is packed in on foot, the roads still being impassable Wallows county appears to be slow about "getting on" with county organization.

"getting on" with county organization.

The Regue river distillery made during the month of March 236 guillons of whisky Grouse are coming into the Bine mountains in good numbers aspathe Heppiner Coact! Arlington Times Wood has commenced to flow into this city Two different consignments have been shipped already.

The Milton Raple is responsible for the state ment that a Milton girl has her bed room papered with old love letter

Dailes exphange The river is very high for this season of the year, but high water now means a less volume in June
Operations in the Fairview mining district will begin before long. At last accounts enow was ten feet deep at the camp.

It is stated that the locomotive engineers of

will befin believe house was the camp

It is stated that the locomotive engineers of La Grande are considering the advisability of establishing a lodge at that place.

Weston Leader The spring run of salmon has commenced and seweral have been poled out of Pine creek. The Umatilla is full of them Sheriff Berbert of Wasco cour y, has collected rud furned over to the treasurer over \$50 000 in laxes, leaving only \$5000 delinquenten the rolls!

Lacksonvillo Times W M Stanley, of Butte

creek, has been appointed stock inspector for In Eastern Oregon commercial travelers re port a great drepping off in orders on account of the interstate control of the interstate of t

into effect April 1st.

About Kingeler, Wasco courty, the loss of stock has been very slight Cattlemen has feed put up in stacks, and the storms last month did no find them unprepared.

Mr. Win Bade's hop, hving on Dry Creek, Umaillia county, cught nine young consider to one nest last Mondey, and he says it went a good day for coyotes either.

The wives of the noble red man are bringing lots of saimon to Weston these days. The bucks have the fun of catching them and the same are law to the fun pedding them.

An experienced poter could make a fortune.

FOR THE CURE OF FEVER and AGUE

Or CHILLS and FEVE?, AND ALL MALARIAL BIS. ASES.

The prophetor of this celebrated medicine justify claims for it a superiority overall remedies ever offered to the public for the SAFE. CEETAIN, SPEEDY and PERMANET curo of Agros and Fever, or Chills and Fever whether of short or long standing. He refers to the entire Western and Southern country to hear him testimony to the truth of the assertion that in no case whatever will it faul to cure if incadrect. Onnanester by followed and carried out. In a great many cases a single dose has been sufficient for a cure and whole families have been carried by a single bottly, with a perfect restoration of the general health. It is, 19 ever prodest and in every case more contain to cure, if its use is continued in smaller different and long standing cases. Usually this medicine will not require any aid to keep the bowless in good order. Should the patient, however required and that the different will not require any aid to keep the bowless in good order. Should the patient, however required another that medicine afterflaving taken three or [1] cases of the Tonic a single dose of KENTS VEGETABLE FAMILY PILLS will be sufficient. Use no older. AND ALL MALARIAL DISTASES,
